

Right of Handle
80mm

Safe Zone

The safe zone is the 3mm inside of the cut line. Make sure all important parts and text of your design are kept away from this area.

Trim Line

This is where your artwork will finish. Any part of your design over this area will be cropped.

Divider Line

The divider line represents the end of the visible area for the left, right and center of your mug

Centre
(opposite handle)
40mm

Top Tips from Amy!
Mugs are fantastic!

You can print to the left or right of the handle as well as in the centre!

If you need an image or text to wrap around the whole mug just fill your artwork to fit across all 3 panels.

The centre panel is opposite from the handle, the handle area itself is not printed on.

Coffee anyone?

Left of Handle
